

6 Tri-Band Mesh WiFi 6 Router

K011111

SKU: 166811 UPC: 840081000000

eero Pro 6 is the fastest eero yet. The Wi-Fi 6 router supports speeds up to a gigabit and coverage up to 2,000 square feet. So you can say goodbye to dead spots and buffering. Work, play, video conference, and stream from anywhere in your home—even when the whole family is online. Set up an eero router in minutes and get automatic updates, a built-in Zigbee smart home hub, and more. Powered by TrueMesh, eero optimizes your wifi to work for your space and supports 75+ devices.

eero Pro 6 features a built-in Zigbee smart home hub, making it easy to connect compatible devices with Alexa. So you can control certain lights, locks, plugs, and more—without the need to buy separate smart home hubs for each.
