

Atlas Audio

4" Pendant Mount Speaker

PM4FA-B

SKU: 25257 UPC: 612079183517

The Atlas Sound PM4FA features the familiar response and dispersion of Atlas Sounds model FA134 high performance 4" Strategy Series driver. This loudspeaker is the same FA Series device used in Atlas Sounds successful model FAP42T ceiling loudspeaker package. Mounted down-firing in an attractive enclosure the PM4FA provides natural sounding wide coverage for low height installations while retaining impressive full range frequency response for both music and paging applications.

Attaching a PM4FA to most over head surfaces is a breeze. For open beam ceilings a 3 meter cable kit is included with a self gripping ferrule system. If down pipe installation from hard ceiling material is required any 3/4" ceiling fan installation kit may be utilized. These kits are readily available under the FANTEC™ brand from home improvement stores with various down pipe length options to provide installation ease regardless of ceiling angle (Up to 45 degree).

Features:

- 4" FA134 Driver Provides 130 Degree (65 Degree Off-Axis) Coverage in the 2kHz Octave Band
- 70.7V Taps @ 1 2 4 8 and 16 Watts Plus 8-ohm Direct Input Via Concealed Terminal Block
- 3 Meters of 2mm Cable & Mounting Hardware Included
